How to send a text message campaign

Sending out a text message campaign to your existing client base has never been easier! If you've picked a design, edited the information and got your list of phone numbers to contact then you're good to go!

From Enter who you would like the message to appear to be from. Limited to 11 characters.

Message Enter the message you'd like to send out. Limited to 100 characters. A clickable URL will be included in the message automatically.

Phone numbers
 And/Or

You can add phone numbers in two ways:

- 1) Type a new phone number in the "enter a phone number" box and confirm by clicking the + button.
- 2) Upload a .xlsx or .xls file containing phone numbers. Please note that the file should contain only one column with phone numbers with no empty cells between them.

You can remove a phone number from the list by clicking the button.

Once you've got to the above page, all you have to do is fill out the fields as follows...

From: Business Name

Message: Say something short, snappy and exciting about your promotion! A direct link to your campaign will be added automatically to the text message when you send it.

Phone numbers: Depending how many people you are sending your campaign to, you can either manually type the phone numbers of your clients in to the box clicking the green + button each time to add a new entry. If you have a large number to send to, then upload a file of numbers by clicking the blue "upload phone numbers" button.

Click Send!

How to get here...

- Click "Promote your campaigns" on the dashboard
- Find the campaign you want to promote then click "Promote this campaign"
- Click "Promote to existing clients"
- Click "Send text message"
